ABOUT ME

I am a postdoctoral researcher in Prof. Stephanie Wehner's lab at QuTech in the Delft University of Technology. My current research work is on the topic of quantum network applications. I recently received my Ph.D. from the Indian Institute of Technology Madras. My doctoral research focused on how to reduce the communication cost during secret recovery in quantum secret sharing schemes. In the past, I also worked on problems in distributed storage, image processing and compressed sensing.

RESEARCH INTERESTS

Classical and quantum error correction codes, information theory, distributed storage and signal processing

EDUCATION

Ph.D. in Electrical Engineering Jan 2016 - Jul 2023

Indian Institute of Technology Madras

Advisor : Prof. Pradeep Sarvepalli

Thesis : Communication Efficient Quantum Secret Sharing Using Quantum Codes

M.E. in Telecommunication Engineering Aug 2012 - Jul 2014

Indian Institute of Science Bangalore

Advisor : Prof. P Vijay Kumar

Thesis : Storage Overhead vs. Repair Bandwidth Tradeoff in Exact Repair Regenerating Codes

B.Tech. in Electronics & Communication Engineering Aug 2008 - Jul 2012

Amrita School of Engineering Coimbatore

Group project : Compressed sensing in ECG signals

WORK EXPERIENCE

Postdoctoral researcher Nov 2023 - Present

QuTech, Delft University of Technology

Quantum network applications

Engineer Aug 2014 - May 2015

Mobile-Video team, Ittiam systems, Bangalore

Development of video codecs in H264 and HEVC standards

Project Associate Jun 2015 - Dec 2015

Codes and Signal Design lab, Indian Institute of Science Bangalore

Project for intrusion detection using Wireless Sensor Networks

PUBLICATIONS

Journal papers

PRESENTATIONS

- Presentation at AQIS 2018, Nagoya, Japan.
- Virtual presentation at IEEE ITW 2020, Riva del Garda, Italy.
- Poster at Indo-German Symposium on Quantum Science and Technologies 2020, IIT Madras, India.

PROGRAMMING

I have good expertise in C and MATLAB. I also have exposure to programming in C++ and assembly language.

TEACHING EXPERIENCE

Applied Linear Algebra I, Jul - Nov 2018

- One of four teaching assistants for a class of about 50 students.
- Conducted weekly tutorial sessions and discussed the solutions for problem sets.
- Evaluated video presentations by students on recent research articles.

Information Theory (online mode), Jul - Nov 2022

- One of seven teaching assistants for a class of about 60 students.
- Conducted weekly tutorial sessions for a group of 10 students.
- Partly evaluated the mini-quiz and final exam papers.

I worked as teaching assistant also in courses such as Error Control Codes, Modern Coding Theory and Advanced Topics in Quantum Information during my Ph.D. programme.

ACADEMIC SERVICES

Paper reviews

- Reviewed a paper for IEEE Transactions on Information Theory in 2021.
- Reviewed three papers for National Conference on Communications in 2017, 2018 and 2019.
- Reviewed a paper for IEEE International Symposium on Information Theory 2014.

Event management

- Partly organized the transportation of the speakers in JTG Summer School 2019 at IIT Madras.
- Helped with taking photographs in Electrical Engineering Symposium 2018 at IIT Madras.
